

SOLID WASTE CONTAINERS AND LIDS

ROTATIONAL MOLDED FRONTLOAD AND REARLOAD PLASTIC CONTAINERS:

Commercial, Industrial and Residential Use Containers for Recycling and Waste Collection

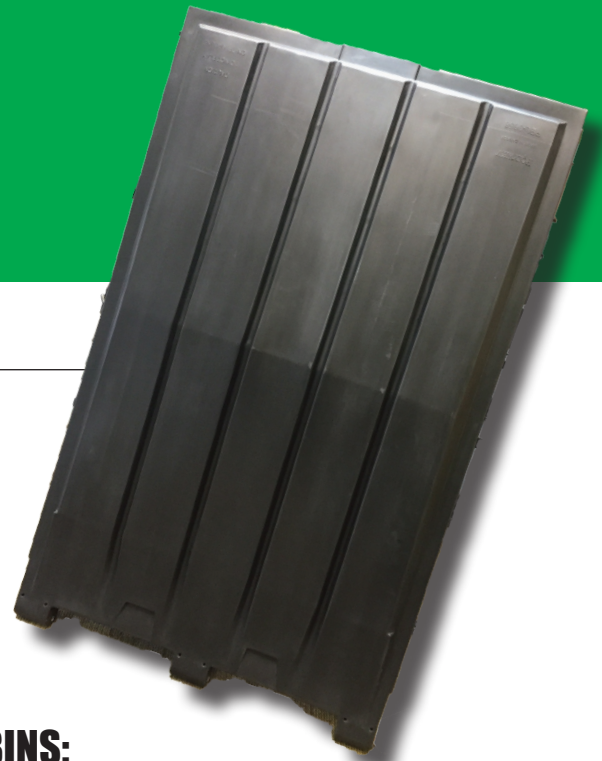

- Averaging 1/3 less weight than steel cans
- Useful for an endless number of applications
- Never rusts and can be easily repaired if damaged
- Virtually maintenance free – no painting and easily cleaned
- Logos and advertising can be permanently molded into container
- Available in both high impact PE or Xlink plastics with UV inhibitors
- Reduces noise by up to 50 decibels – perfect for those areas with early morning pickups!
- Outstanding impact strength at extreme temperatures (both hot and cold temperatures)
