

10,000 GAL VERTICAL STORAGE TANKS

Vertical storage tanks are most frequently used for bulk storage applications. Each 10,000 gallon tank is capable of holding a full Super-B load of liquid fertilizer, making them an ideal solution for direct to farm fertilizer programs.

Norwesco vertical tanks feature tie-down slots, molded in graduated gallon indicators, an offset fill opening and a self-vented, slosh-proof lid.

Polywest is the largest Canadian distributor and one of North America's largest distributors of Norwesco polyethylene tanks.

Norwesco is North America's leading manufacturer of proprietary rotationally molded polyethylene tanks for agricultural, water, closed-top industrial and below ground septic and cistern applications. Polywest distributes Norwesco tanks from three (3) locations strategically located in the Canadian Prairie Provinces.

Each of our locations inventory a wide variety of Norwesco tanks and we are able to source our tanks from all 16 Norwesco plants and ship them to customers across North America.

PART NUMBER	DESCRIPTION	COLOR	US GALLONS	IMPERIAL GALLONS	LITERS	DIAMETER (IN)	HEIGHT (IN)	LID SIZE (IN)	TANK FITTING (IN)
